Prezi

- A great cure for boring presentations by bringing motion to your story
- [Click here](#) to go to the Videos page to view a short (1:09) introduction to Prezi
- To learn more, visit the [Learn page](#) at Prezi.com
- [Click here](#) to sign up with a teacher account which allows you access to more features

With Skitch, you can add nice little notes on top of the image you have captured...

Bummer!!!!!!!!!!

Skitch - available for MAC only

- Fast screen capturing, image editing and sharing, includes text, annotation and drawing tools
- Sign up here to be notified once a PC version is released: <http://skitch.com/signup/notifywindows/>
- PC users can use Jing as an alternative, though it is not as slick...

Screencast-O-Matic

- Easily record screencasts with this free, one-click recording application
- View the short (1:39) demo video for a quick overview of Screencast-o-matic
- [Click here](#) to go to the Videos page to view a short (1:25) screencast made with Screencast-o-matic
- If you are interested in a more robust screen capturing application, [check out Camtasia](#) - which was used for the Advanced Image Search screencast from the Google Tools workshop
